Narrative

On 09-13-17 at approx. 1202 hours I was dispatched to a recent assault report at Cascade Behavioral located at 12844 Military Rd S in Tukwila. The call stated that the patient was hit in the face by a resident at location. The call also stated that the patient was waiting on the 3rd floor for contact.

I arrived on location and was waiting for my back up officer when Tukwila Fire personnel were clearing the call. They said that they had just seen the patient and that he was going to be transported to a hospital to get checked out. They said that he was struck on his temple area and that he may have lost consciousness for a few seconds but did not appear to have more serious injuries.

Officer Wollan had arrived on location and was speaking to staff to gather information on the suspect. The suspect was identified as [REDACTED].

My investigation found the following. [REDACTED] was punched 2-3 times in the temple area of his head and lost consciousness for at least a few seconds. The assault was witnessed by several employees at location that identified [REDACTED] as the suspect. [REDACTED] was on a court ordered involuntary commitment hold.

I made contact with the patient/victim now identified as [REDACTED]. He said that he is an interpreter that was hired by Cascade Behavioral to provide interpreter services at the location. He said that he was interpreting on another matter not involving the suspect in the assault. He said that he was on the third floor in the involuntary commitment ward sitting down in a common area. He said that the suspect was talking with a nurse about needing a hair razor to shave. He said that the nurse told the suspect that he could only have a razor to shave his face. He said that the suspect then mentioned something about him not being allowed to hit a woman and he then turned and hit [REDACTED] 2-3 times in the head. He said that he then remembers standing up and then does not know what happened. He said that he was told by other staff that he passed out on the floor for a few seconds and then woke back up.

[REDACTED] said that he knew that the suspect was on inside the medical center on mental issues and that at this time he only wanted this case documented. He said that he did not want criminal charges to be filed on the suspect. I took an audio statement from [REDACTED] and also got a signed medical release form from him. Both items are included with this case.

I next interviewed [REDACTED]. She is a medical assistant at the facility. She said that she was working on the same floor. She said that she heard a disturbance and looked back to see [REDACTED] punching [REDACTED] in the face. She said that she saw at least one of the punches connect to [REDACTED]'s temple area. I took an audio statement from [REDACTED] that is included with this case.

Officer Wollan obtained audio statements from two other witnesses identified as [REDACTED] and [REDACTED]. Officer Wollan also gathered information on the [REDACTED] including his identity information and court paperwork. This information will be scanned into this case.

Please see Officer Wollan's follow up for further.

I interviewed [REDACTED] who is the patient/victim advocate for Cascade Behavioral. He confirmed [REDACTED]'s information with me and I also showed him a DOL photo of [REDACTED] for identity confirmation purposes. He positively identified the photo as [REDACTED].

I did not interview [REDACTED] since he was on a court ordered involuntary commitment and had no attorney present.

This case was taken for documentation only at this time and will not be sent to the prosecutor due to the victim's preference that no criminal charges be filed.
